Once you have installed the WS FTP client you are ready to configure your FTP software.

STEP 1:

Open WS_FTP. When the program loads it will come up with the 'Session Properties' window. This window allows you to add, edit and delete FTP account profiles.

STEP 2:

Fill in the following details, refer to the below diagram:

Profile Name: Outer Aspect

Host Name/Address: 203.109.153.35

User ID: ftpguest

Password: outerspect

STEP 3:

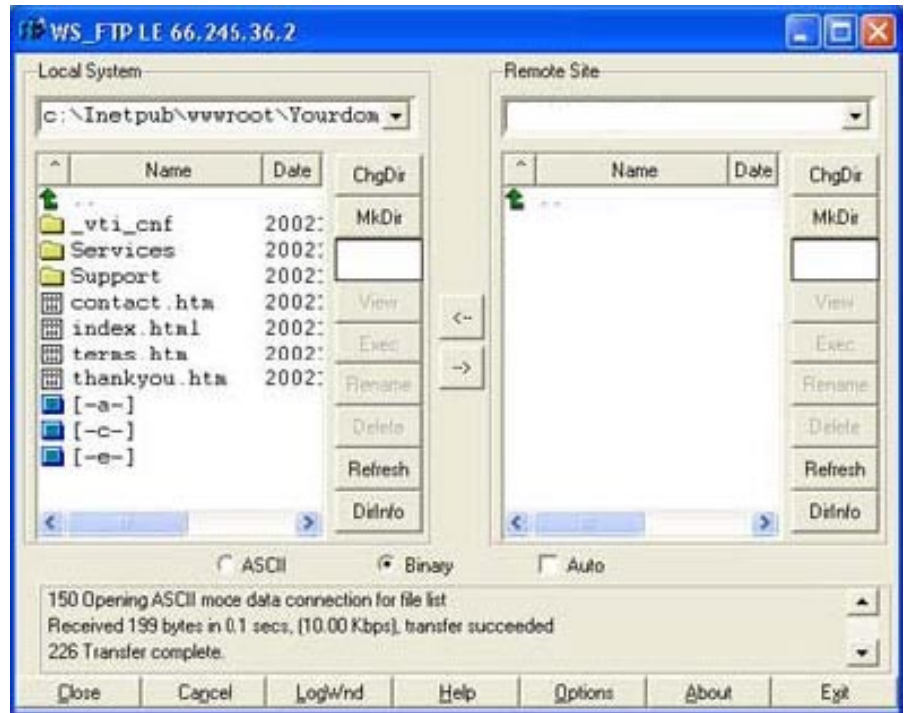

Click the 'OK' button to connect to the FTP server.

STEP 4:

When login is successful, you'll see the following display. The left pane displays all files in your local computer's directory while the right pane display all files in our guest directory.

STEP 5:

Simply drag the files from your hardrive you want to transfer into the right panel.

STEP 6:

When you are asked if you want to transfer the selected files, click "YES". You can see the progress of files transfer in the bottom pane.

Step 7:

When FTP completed, you'll see "transfer completed" being displayed in the bottom pane. That's it your files are now on our guest ftp server.
